Product Specs:

ISOMETRIC VIEW

FRONT VIEW

SIDE VIEW

Firemeter

How hot is your sauna right now? Well, to be honest: Who cares? If it's too cold, then it's too cold, and if it's too hot, then it's too hot... But lot's of people - including myself - still want to be aware of the facts. Therefore we made our "heat information meter" a most comprehensive graphic device to show the level of your fire. Both in Celsius and in Fahrenheit. Firemeter....
