SAUNA HEATERS with Saunova 2.0 Control

Now, built-in control heaters are equipped with multi-level sauna functions! They have several useful features with handy settings to adjust.

Ni2 Heaters are using Saunova 2.0 control which has a smart heat controlling that alternately switch off a heating element when set temperature is reached. This process will save energy and reduces temperature fluctuations that keeps heating elements to work in a balance pace.

The Saunova user interface can be installed inside or outside the sauna room.

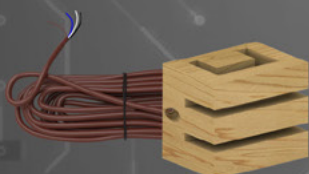

Saunova 2.0 User Interface

Included in the package

RJ Cable

Temperature sensor
with silicon wire

Control Specifications

- » User interface size: (W) 104 x (H) 147 x (D) 3,5mm
- » User interface weight: 0.37 kG
- » 7 LED indicators
- » 5 buttons
- » Stainless metal casing
- » Temperature setting
- » Celsius / Fahrenheit unit of measure
- » Session Time limiter for 1h, 2h, 4h, 6h, 8h, 12h, 18h, 24h
- » Pre-run timer max 6h domestic use / 24h public use
- » Keypad lock
- » Light control
- » Fan control (optional)
- » Extra bench sensors (temperature or temperature-humidity)
- » Heater safety switch (EN 60335-2-53) or door switch feature
- » Remote On feature for household automation
- » Steamer function with cabin drying (for Combi heaters only)
